4.4 GUIDELINES FOR PONY CLUB ARENA EVENTING

Arena Eventing is a two-phase competition, which can be run on either an indoor arena, outdoor surface, or a grass arena. General rules follow the current Pony Club Eventing Rule book except as modified below.

Competitors will jump a course of show jumps immediately followed by a course of cross-country style fences**. There will be no more than 20 (dependent on the size of the arena) jumping efforts in total. This may be increased to 25 jumping efforts at the Championships.

The course at the Spring Festival Championships will finish with the last fence as a show jump, the Bogey Fence, **which may be up to 10cm higher** than the rest of the course. **Knocking down the Bogey Fence will incur 6 penalties, for all other penalties the Bogey Fence will be deemed as part of the Show Jumping section.** Area Competitions may include a bogey show jump fence to finish the course if they wish.

The optimum time should be based on a speed of 325mpm for PC70, 350mpm for PC80 and **PC90**, and 375mpm for PC100.

The winner will be the competitor with the lowest number of penalties. In the event of a tie the winner will be the one closest to the optimum time.

There should be a drawn order and, where possible, approximate start times given in advance of the day.

The course will only be open for walking before the class starts.

The Judge's decision is final.

For Area Competitions a BS Course Designer is mandatory. If the course designer is not qualified, then approval must be sought from The Pony Club.

The Course:

- If possible, the first two fences should be sited to be jumped towards the collecting ring.
- One third to one half of the obstacles should be spreads and must include at least one square oxer.

- Distances - unless the competition class stipulates the height of pony the distances should be for horses.
- In a course designed for a mixed class (horses and ponies) it is important not to use difficult committed distances so that ponies can adjust their strides. There should be no three-stride distances anywhere in the course. There must be no less than five strides on the approach or following any combination (either double or treble). Except where the rules for the competition stipulate and there is a significant mix of sizes of ponies/horses, one or two double combinations instead of a double and a treble may be better suited to the competition.
- The second element of a double combination must be an upright.
