

The Pony Club Championships 2026

Eventing Championships Provisional Draws

The drawn Areas are in no particular order but are there to give competitors an idea of whether they are likely to compete in the morning or afternoon. This should help with planning arrival times and deciding whether stabling is needed. If your allocated session is likely to clash with another Championship event or commitment, please add a note to your entry. We can pick up most clashes automatically, but any extra information - such as parents supporting siblings competing at the same time - is always helpful when putting the timetable together.
